Villa in Spain

Aluminium sliding doors in a single-family house

This villa in Spain features attractively large glass surfaces that create a direct link with its surroundings and allow plenty of light into the interior. The FIN-Slide lift-and-slide door allowed particularly large sashes to be installed that are nevertheless easy to use. FIN-Project was the ideal solution for the remaining windows. The aluminium veneer is very easy to maintain and remains dimensionally stable even in strong sunlight. The PVC core ensures excellent insulation values.

Products used

U_w - Heat transmittance coefficient of window element

R_w - Sound insulation properties of a window

npd - No performance determined

FIN-Slide Classic-line

aluminium-aluminium

U_w 1-sash 2-/3-glazing:

1,4 / 0,95 W/m²K

U_w 2-sash 2-/3-glazing:

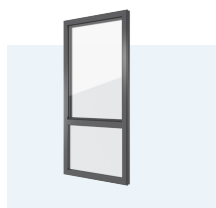

1,5 / 1,1 W/m²K

R_w Standard:

npd

R_w Best value:

npd

FIN-Project Nova-line 78/88

aluminium-aluminium

U_w 1-sash 2-/3-glazing:

1,2 / 0,81 W/m²K

U_w 2-sash 2-/3-glazing:

1,3 / 0,94 W/m²K

R_w Standard:

38 (-2;-6) db

R_w Best value:

41 (-3;-7) db
