The Gartenhotel Moser at the Montiggler Lake

Windows, lift-and-slide doors and a window wall in the new Ramus building.

The new Ramus building contains 13 suites, the client's private areas and a modern wellness and sauna area. A pronounced sense of beauty: practical considerations also play an important part in the building of a hotel. So, in addition to the high-quality FIN-Vista window wall system and the FIN-Project windows used, FIN-72 aluminium and aluminium-uPVC windows were also installed, thus ensuring easy cleaning, excellent heat insulation and solid protection against burglars.
