

FIN-72 Classic-line 72
uPVC-uPVC

House in Urk

UPVC windows in an old house.

The owners of this typical Dutch single-family house wanted replacement windows that would maintain the traditional aesthetics of the house with minimal disruption. Finstral's slide-on system allowed the new windows to be quickly and cleanly installed without any need for masonry work. The FIN-72 Classic-line uPVC windows with their white fitted glazing bars retain the classic look of the house, while the centre sealing and uPVC core ensure good thermal insulation values.
