(BALANCE ARCHITETTURA)*

TALKS ON TRANSFORMATION

In this collaboration between TU Wien and Finstral, we are taking the recently published book "Reuse in Teaching" as an opportunity to discuss the future of architectural education and practice over the course of one year with significant figures in four European cities where the culture of adaptive reuse holds special significance.

Talks on Transformation is kindly supported by Finstral AG. Further informations under:
finstral.com/fiere-ed-eventi

The event is moderated by Lorenzo De Chiffre and Katharina Paschburg, TU Wien.

Wednesday, 20 May 2026, 18:00.

CRAFT Centro di Competenze Territori AntiFragili,
