

FIN-Window Slim-line 77+8  
aluminium-uPVC

## Single-family house near Turin

A building with two faces: contrasting styles at front and rear.

The scheme involved refurbishment of a house in Chivasso. While the front elevation features the neoclassical style, the rear sports a starkly contrasting, ultra-modern composition. The windows play a key role in the aesthetics: the outer Quartz Grey frames with their Slim-line design blend elegantly in both colour and style with the two differently fashioned façades. The distinctive Step-line frame shape of the lift-and-slide doors on the modern front fits neatly with the building's design language.

The bright interior spaces respond to the external contrast with internal harmony, which is intensified by the slender, light-coloured, Cream White window frames. The feel-good atmosphere is further enhanced by the Pebble Grey frames of the expansive lift-and-slide doors. The building's front door is also in keeping with its overall colour scheme – while at the same time vouching for a secure home.
