Single-family house in the Pyrenees

Large window fronts link interior and exterior.

Finstral windows and lift-and-slide doors were fitted in a 2023-completed new-build in the heart of the Pyrenees. The Nova-line window sash with its frame-covering all-glass look and the ultra-slim, generously glazed lift-and-slide doors admit ample daylight into the indoor spaces. In doing so, they merge the interior and spacious garden into a single entity.

Finished in Mars Rust Brown mottled on both inside and outside, the aluminium window and lift-and-slide door frames sit harmoniously with the timber building's overall composition. The core of Finstral's windows and doors always comprises highly insulating uPVC, produced according to the company's own formulation: Finstral uses only lead-free and thus fully recyclable uPVC in conjunction with a 23% proportion of recycled uPVC granulate. The outstanding insulation performance and recyclability of our window products thus make a major contribution to sustainability.

Type of building	Single-family dwelling
Construction	2023
Project Planning	New build/conversion Alejandro Royo
Country	Spain
Region	Lleida Pyrenees
City	Bonansa
Photographer	Javier Alonso

Products used

U_w - Heat transmittance coefficient of window element

R_w - Sound insulation properties of a window

npd - No performance determined

FIN-Fold Nova-line Plus 88

aluminium-aluminium

U_w 1-sash 2-/3-glazing:

1,4 / 0,94 W/m²K

U_w 2-sash 2-/3-glazing:

- / - W/m²K

R_w Standard:

npd

R_w Best value:

npd

FIN-Slide Slim-line 170

aluminium-aluminium

U_w 1-sash 2-/3-glazing:

1,5 / 0,93 W/m²K

U_w 2-sash 2-/3-glazing:

1,5 / 1,0 W/m²K

R_w Standard:

npd

R_w Best value:

npd
